The United Scientific Group (A Non-profit Scientific Organization) organizes interdisciplinary international conferences to showcase on cutting-edge basic and applied research outcomes within life sciences including medicine and other diverse role of science and technology in society.

Vet R&D-2023|Virtual, a three-day conference, will provide attendees with the opportunity to interact, learn from, and engage with business leaders and industry's leading researchers while addressing pressing issues confronting the next generation. Participants will be top-level representatives from sectors like prominent commercial, regulatory, and scientific organizations and academic institutes.

USG offers several opportunities for sponsors to demonstrate their support towards science and its people by providing financial contributions to facilitate the presentations of noble research findings, hospitality, and other necessary management for the scientific gathering.
